Liliana Luces, BVSD — Confirms Petitioner's Prior Registration Caused Enrollment Blockage

Authenticated by: Richard Dorsey | Source: dorseydriver01@gmail.com

PURPOSE OF THIS EXHIBIT

BVSD Early Childhood Community Liaison Liliana Luces confirms in writing that Respondent was unable to complete Rae's Nederland enrollment because Petitioner Lauren Dorsey (referred to as "Mrs. Lola") had already started an enrollment application for the K-12 program rather than the preschool program. This caused a "duplicate student" error that blocked Respondent's enrollment attempt on May 29, 2026.

KEY PASSAGE — June 8, 2026 (Liliana Luces to Richard Dorsey):

"you were unable to proceed because Mrs. Lola had accidentally started an enrollment application for the K-12 program rather than the preschool program."

Note: "Mrs. Lola" refers to Petitioner Lauren Dorsey.

Hi Richard,

I listened to your voicemail from the weekend and understand that you need assistance with the SchoolMint enrollment process.

We were able to add Rae to your SchoolMint profile. However, you were unable to proceed because Mrs. Lola had accidentally started an enrollment application for the K–12 program rather than the preschool program.

To make the process easier, I have already started the correct preschool application for you. All that remains is for you to log in to the portal and complete the remaining sections.

Once you log in, you should see your profile set up — to continue, click the "Start" button under "Register for Preschool Registration" on the right side of the screen.

Please let me know if you have any questions or need any assistance.

Also, please remember to complete the SchoolMint application and the questionnaires ASQ3 and ASQSE before our meeting on Thursday at 10:00 a.m. at the Nederland school playground.

Have a wonderful day!

Warmly,
Liliana
